VOLUNTEERS NEEDED! Especially Worcester Area

STEM AMBASSADORS NEEDED In the Worcester area for
the "DIGITS" PROGRAM

MOSES is again seeking volunteers for a program to increase middle school student interest in science, technology, engineering and math. (STEM) There is an immediate need for ambassadors in the Worcester area.

MOSES, as representatives of the science and engineering employees of the Commonwealth, MassDOT and MWRA has been involved in the program and is again seeking volunteers (ambassadors) for this important program. This is an opportunity to promote public service and to highlight the professional employees of the Commonwealth, MassDOT and MWRA.

To learn more about the DIGITS program [click here](#).

Six Massachusetts technology associations piloted a program last June and found that the information provided to the students had a positive impact on the student's perceptions of science, technology, engineering and math. The MOSES volunteers that participated in the program last year truly enjoyed their experience.
